**New beaked whales from the late Miocene of Peru and** - NCBI A high diversity in fossil beaked whales (Odontoceti, Ziphiidae) recovered by trawling from the sea floor off South A new fossil whale from the Miocene of Peru.

**Encyclopedia of Marine Mammals - Google Books Result** Fossil whale preservation implies high diatom accumulation rate in the Two new species of fossil walruses (Pinnipedia, Odobenidae) from the upper Pliocene San sloth Thalassocnus (Mammalia, Xenarthra) from the late Miocene of Peru. **The giant bite of a new raptorial sperm whale from the Miocene** Study of fossil odontocetes (toothed whales) from Peru southern coast of Peru, in 1944, many new taxa from Miocene and Pliocene levels of this formation **A new Miocene baleen whale from the Peruvian desert - NCBI - NIH** The Miocene/Pliocene Pisco Formation in Peru consists mostly of sandstones, siltstones, and taphonomic features of the fossil whales of the Pisco Formation. **The giant bite of a new raptorial sperm whale from the Miocene** Nature 466, 105108 (2010). The genus name Leviathan, proposed in this Letter for a new fossil physeteroid from the Miocene of Peru, **Tusk-bearing beaked whales from the Miocene of Peru: sexual** The sperm whale fossil record had still not revealed all its secrets -- until bite of a new raptorial sperm whale from the Miocene epoch of Peru. **Taphonomy of fossil whales in the diatomaceous sediments of the** 2009. A new beaked whale (Odontoceti, Ziphiidae) from the middle Miocene of Peru. Journal of Vertebrate Paleontology 29:910922. **FOSSIL EVIDENCE OF Miocene - Wikipedia** Fossil whale preservation implies high diatom accumulation rate in the MiocenePliocene Pisco Formation of Peru. Leonard R. Brand\* Department of Natural **Fossil whale preservation implies high diatom - Geology** Diatoms and diatomite associated with fossil whales. A new Miocene baleen whale from the Peruvian desert R. Soc. open sci. , October 1, 2016, v. 3, p. **Images for A New Fossil Whale from the Miocene of Peru** Abstract. New well-preserved fossils from Peru reveal details of the dentition and morphology of the mandible and rostrum in 2 late middle to early late Miocene **The giant bite of a new raptorial sperm whale from the**

**Miocene Details - A new fossil whale from the Miocene of Peru. Bulletin of the** report new fossil beaked whales from the late Miocene of the Pisco Formation. (southern Peru). The best preserved remains here described are **Taphonomy and paleoenvironmental conditions of deposition of** The Biodiversity Heritage Library works collaboratively to make biodiversity literature openly available to the world as part of a global biodiversity community. **A new fossil whale from the Miocene of Peru. Bulletin of the AMNH** Nature 466, 105108 (2010). The genus name Leviathan, proposed in this Letter for a new fossil physeteroid from the Miocene of Peru, **New beaked whales from the late Miocene of Peru and - PeerJ** Nature 466, 105108 (2010). The genus name Leviathan, proposed in this Letter for a new fossil physeteroid from the Miocene of Peru, **New discoveries of fossil toothed whales from Peru - Provincia di** **Giant sperm whale from the Miocene period discovered in Peru** Here the authors report the discovery of the teeth and jaws of a fossil raptorial sperm whale from the Middle Miocene of Peru, almost as large as **A New Beaked Whale (Odontoceti, Ziphiidae) from the Middle** The Pisco-Ica and Sacaco basins of southern Peru are renowned for their abundance of exceptionally preserved fossil cetaceans, several of The Miocene is the first geological epoch of the Neogene Period and extends from about 23.03 Whales, seals, and kelp spread. The Miocene is .. New Zealands Miocene fossil record is particularly rich. Marine deposits . Reumer (2010). The giant bite of a new raptorial sperm whale from the Miocene epoch of Peru. **A new fossil whale from the Miocene of Peru. Bulletin of the AMNH** The Miocene/Pliocene Pisco Formation in Peru consists mostly of sandstones, siltstones, and taphonomic features of the fossil whales of the Pisco Formation. **The giant bite of a new raptorial sperm whale from the Miocene** Here we report new fossil beaked whales from the late Miocene of the Pisco Formation (southern Peru). The best preserved remains here **new inioid (Cetacea, Odontoceti, Delphinida) from the Miocene of** , Colbert, Edwin Harris, 1905-, en\_US. dc.date.accessioned, 2005-10-05T22:01:49Z. dc.date.available, 2005-10-05T22:01:49Z. dc.date. **New beaked whales from the late Miocene of Peru and - PeerJ** A new fossil whale from the Miocene of Peru. Bulletin of the AMNH v. 83, article 3. Colbert, Edwin Harris, 1905-. URI: <http://2246/389>. Date: 1944. **A new Miocene baleen whale from the Peruvian desert Open Science** Here we report new fossil beaked whales from the late Miocene of the Pisco Formation (southern Peru). The best preserved remains here **Fossil whale preservation implies high diatom accumulation rate in** conditions of deposition of fossil whales in the diatomaceous sediments of the Miocene/Pliocene Pisco Formation, southern PeruA new fossil-lagerstatte.
