Published in: IEEE Aerospace and Electronic Systems Magazine (Volume: 20 , Issue: 10 , Oct. **Core Concepts of Nanotechnology with Application Spectrum** by Nanotechnology is technology operating at the atomic level. An application of this technology is the manufacture of inert and bio-objects. Similar to nature **ICONIC07 - IEEE Xplore** Abstract: This article describes a notional system-of-systems concept that is compatible with futuristic multi-function multi-platform sensor applications. **Development and Prospective Applications of Nanoscience and - Google Books** **Result** Called the Very High Efficiency Solar Cell (VHESC) program, it hopes to take advantage of recent advances in

nanotechnology by using to design and cost-effectively fabricate small-feature, complex, broad-spectrum non-imaging optics. **Advances in Nanotechnology Research and Application: 2011 Edition - Google Books Result** Core Concept of Nanotechnology with Application Spectrum/edited by Rakesh Rathi. **Practical Oceanographic Research and Applications Involving** Core Concept of Nanotechnology With Application Spectrum. by Rakesh Rathi.
