

THE DOCTOR: DECEPTION IN SPACE - WAR

Introduction. As requested a selection of adventures of a time travelling doctor in short story format to read to your children. The Time Machine had no sooner left earth when it was drawn to a deep and uncharted section of space where a solitary alien awaited the doctors arrival, Advantec was known to the doctor and came from a race of life forms who preferred peace and to live in harmony with that of their surroundings. As the Time Machine materialised upon a lone moon satellite, Advantec was there waiting to greet her old friend. Joshua and Jessabelle viewed the huge screen to see what was outside awaiting them. You both stay here for now, it is for your own safety had said the doctor, and the doctor ventured out on her own, and to greet her old friend. Unbeknown but suspected by the doctor it was a trap, the life form was not Advantec but a skin walking alien, and one of a faction who had declared war upon Advantecs race, and taking advantage of their peaceful nature. As the doctor is captured and carried away, huge gunships uncloak and point their weapons towards the doctor, and then as troops of aliens who had been invisible to the eye, surrounded the doctor to try and capture her Time Machine for their own use. ?
