

## The Night the Moon Slept

Susan Baggette creates memorable characters and gives young children a fresh introduction to science content through her unique storytelling approach. Young readers will delight in Ward Saunders vibrant illustrations. The sum of the story and pictures is sure to inspire children to begin searching the skies for a cloud just like little Nimbus. Nimbus is a mischievous little cloud who simply cannot behave, no matter how hard he tries. Early one evening he and his mother, Queen Cirra, are out for a sailing lesson. When his curiosity gets him into trouble, Queen Cirra sends him home to the Cave of Winds. Along the way Nimbus discovers that Mother Moon is very sleepy and decides to help her out. That's when the trouble really begins! Nimbus learns a valuable lesson and gets help from some unexpected new friends.
