

Future Power,Future Energy: Hydropower

Can you imagine having no petrol for your car? Can you imagine no electricity to power your lights, fridge, and television? The fuels we use today are going to be over sooner or later. They are also causing pollution. We need clean and renewable sources of energy. This book takes a close look at hydro power as a future source of power. Books in this series: Future Power,Future Energy: Bioenergy Future Power,Future Energy: Hydrogen Power Future Power,Future Energy: Hydropower Future Power,Future Energy: Nuclear Energy Future Power,Future Energy: Solar Power Future Power,Future Energy: Wind Power
