

## The Tallest Tree in the Forest

The Tallest Tree in The Forest, is about our tingle trees. Yes they do exist! In a very tiny area in south west of W.A. and they grow no where else in the entire world. The story is about one particular little tingle seed is so ambitious to be the tallest tree, that he is greedy, selfish, and arrogant toward every one around him. He learns some hard lessons about attitude on the way up. The young readers learn about how a forest works, why it pays to be nice, and the importance of habitat trees for birds and animals.
