

If you have a particular interest in magnets, you can build this simple device to create new magnets and recharge weak ones. Although specifically designed to recharge magnets used in engine magnetos, this device can be used for producing or restoring magnets in a great variety of shapes and sizes so long as they are made of alloy steels. This is a relatively simple device. Only ordinary mechanical skills are required to build it. The metal core however is of very heavy steel and some machining operations may be required.

The Reluctant Dragon: A Short Story for Children, Medical repository of original essays and intelligence relative to physic, surgery, chemistry, and natural history (Volume 7), An Account, Geographical, Statistical And Historical Of Orissa Proper, Or Cuttack, my little friends, Grumpy Dragons - Firman the Fibber: A dragon book for kids and early readers, Lockwoods Directory of the Paper and Allied Trades, Volume 31 - Primary Source Edition,
