

Analysis of the effects of integrating ICT in teaching process: Analysis if the effect of Integrating ICT in teaching process in primary schools in Kisumu City

This book has a lot of information and insights about integrating Information Technology into teaching process. It brings to the global society the benefits of using computers to aid teaching process right from: teachers preparing lessons, delivering lessons in classrooms, preparing teaching aids, setting exams, analysing and reporting results to learners/students, recording and managing teaching and education process. More importantly, it models a logistic equation for teaching process which can be adopted elsewhere.
