

Neil, a twelve year old boy, becomes friends with Leo. What Neil doesn't know was that it was the start of his journey to another world; a world that is full of magic, monsters and dragons. And what is the secret of the Black Panther which he often dreams about? P.A.M. van der Poel often shares made-up stories to her cousins. Eventually, she decided to combine several of these stories into one. The result is this book, The Hidden Castle.
