

A paper presenting facts and suggestions in proof of the theory of the gradual and continuous diminution of the quantity of water upon the earth, and ... conversion into solid forms of matter

This book was digitized and reprinted from the collections of the University of California Libraries. It was produced from digital images created through the libraries mass digitization efforts. The digital images were cleaned and prepared for printing through automated processes. Despite the cleaning process, occasional flaws may still be present that were part of the original work itself, or introduced during digitization.
