

Lone Wolf (The Oldenglen Chronicles) (Volume 2)

Twelve-year-old Jax is sure his secret is safely hidden within the vast forests of Oldenglen, his new home in the remote mountains of Oregon. But that is before the school bully provokes the wild beast inside him—the savage streak of wolf the glens magic has awoken—and Jax lashes out, risking discovery of his strange condition and the mysteries of the glen. Now the bully and his gang have stormed Oldenglen, looking for answers and revenge. Lone Wolf, the second in The Oldenglen Chronicles middle-grade fantasy series, pits English schoolboy Jax, his best friend Sarah, and the four-legged and winged inhabitants of the wildwood against the intruders. As he struggles to master the wolf within, Jax is propelled along a path into grave danger. Lives hang by a thread as both friend and foe discover the dark woods conceal greater perils than the enemies they know.
