

Orphaned upon her mother's death, thirteen-year-old Kelly MacBride is sent to live with a mysterious grandmother whose Highland estate whispers with intrigue. Aided by Gordie, an obsessive bagpiper with a penchant for Shakespeare and mischief, Kelly deciphers riddles penned in ancient runes. These lead her to hidden tunnels and secret chambers where she chances upon a how-to guide on shape-shifting. But plots lurk just out of view—an attack on the manor's working dogs, a midnight ambush, and a poisoning threaten the manor's safety. Shape-shifting might help Kelly identify the source of the danger, but as a mouse she can't run without tripping on her tail; in squirrel form she finds herself fifty feet in the air without a branch to cling to; and she learns just how blind bats are when she forgets to engage her echolocation. Can she get it right in time? Set in the Highlands of Scotland, *Through the Eyes of a Raptor* weaves Celtic myth and Scottish culture around questions of loyalty and betrayal, delivering a captivating tale of magic and suspense.
